

# CERTIFICATE OF COMPLIANCE

**Certificate Number** 20140509-E209725  
**Report Reference** E209725-20131213  
**Issue Date** 2014-MAY-09

**Issued to:** Maincor Rohrsysteme GmbH & Co KG  
Silbersteinstr 14  
97424 Schweinfurt GERMANY

**This is to certify that representative samples of** COMPONENT - TUBING, MECHANICAL PROTECTION  
See addendum page for models

Have been investigated by UL in accordance with the Standard(s) indicated on this Certificate.

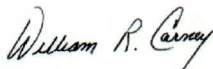

**Standard(s) for Safety:** UL 1696 - Standard for Nonmetallic Protection Tubing  
**Additional Information:** See the UL Online Certifications Directory at [www.ul.com/database](http://www.ul.com/database) for additional information

Only those products bearing the UL Recognized Component Mark should be considered as being covered by UL's Recognition and Follow-Up Service.

The UL Recognized Component Mark generally consists of the manufacturer's identification and catalog number, model number or other product designation as specified under "Marking" for the particular Recognition as published in the appropriate UL Directory. As a supplementary means of identifying products that have been produced under UL's Component Recognition Program, UL's Recognized Component Mark: , may be used in conjunction with the required Recognized Marks. The Recognized Component Mark is required when specified in the UL Directory preceding the recognitions or under "Markings" for the individual recognitions.

Recognized components are incomplete in certain constructional features or restricted in performance capabilities and are intended for use as components of complete equipment submitted for investigation rather than for direct separate installation in the field. The final acceptance of the component is dependent upon its installation and use in complete equipment submitted to UL LLC.

Look for the UL Recognized Component Mark on the product.
